Shareholder structure (Continued)***Rights and Obligations of Shareholder***

The rights and obligations of shareholder are described in details in the Bank's Charter that protects the Bank's interests as of an independent business entity and the shareholder's interests.

Shareholder is authorized to:

- a) Obtain exhaustive and timely information on the place, time and agenda of the General Meeting as well as sufficient information in connection with the issues to be discussed at the Meeting;
- b) Request explanation from the Executive Officers or the Supervisory Council on each item of the agenda of the General Meeting; also request any additional information that is reasonably necessary to make a decision on the issue. If a request for explanations is given in writing 10 days prior to the General Meeting, it shall be satisfied or discussed as one of the items of the agenda;
- c) Participate in the work of the General Meeting personally or through his representative, express ideas on the issues of consideration, put questions and put forward proposals;
- d) Participate in the management of the Bank by taking part into the General Meeting of Shareholders;
- e) Purchase or/and transfer shares; receive dividends on the basis of the decision of the General Meeting of Shareholders;
- f) Request explanations from the Directors and the Supervisory Council on each item of the agenda of the General Meeting;
- g) Appeal against the resolution of the General Meeting (within two months upon drawing up the Minutes of the Meeting);
- h) Get acquainted with the annual, semi-annual and current reports of the Bank as well as with the information on important purchases and the securities beneficially owned by the management body;
- i) Receive oral and written explanations from the members of the management body on the past, current and future activities of and purchase and transfer of substantial assets by the management bodies of the Bank as well as on any issue within the scope of his interests. Any refusal to provide information or explanation can be given in case when it is prejudicial to the commercial interests of the Bank and the refusal is duly reasoned.
- j) To file an appeal against a third party on behalf and in favor of the Bank in order to satisfy the Bank's claim, if the Bank has not implemented its claim. Exercising of this right shall be carried out as set out under the Laws of Entrepreneurs of Georgia.

Holder of five or more percent of the shares of the Bank may also:

- a) Request special audit of business activities or the entire balance sheet; if the General Meeting dismisses the request, apply to the court with the same request. Audit shall be conducted by an expert chosen by the shareholder having the respective knowledge and experience. If any violations are uncovered, the expenses related to the special audit shall be borne by the Bank;
- b) Request, in accordance with the Bank's interests, the holding of the Extraordinary Meeting. The request shall be substantiated in writing. If the Executive Officers of the Bank do not convene the meeting within twenty days upon such request, the shareholder may apply to the court with the same request;
- c) Request that an item be included in the agenda of the meeting; in this respect, request the information and report of the Executive Officers and the Supervisory Council;
- d) Demand from the Management body a copy of transaction made on behalf of the Company and/or information on a transaction to be made on behalf of the Company.

A shareholder has no right to vote when the decision is related to signing a contract with him or approval of his report.

If a shareholder believes that his shareholding rights are violated for any reason, he may apply to the Supervisory Council. The Supervisory Council shall take measures to eliminate such violations or give a substantiated response to the shareholder in connection with his application.

In addition to the rights set forth above, the shareholders of the Bank have other rights as vested in them by the applicable laws and the internal regulations of the bank.

Ordinary shareholders exercise their rights (right to vote, right to receive information, right to convene the Extraordinary General Meeting) at the General Meetings.

Shareholder structure (Continued)

The Board of Directors is controlled by the Supervisory Council through the following Committees:

- Risk Committee;
- Remuneration Committee;
- Audit Committee;
- Credit Committee;
- Limit Revision Committee

Corporate Governance (Continued)

Information about the Chairman of Committees

- **Mr. Olgun Tufan Kurbanoglu** is the Chairman of the Credit Committee
- **Ms. Ozan Uyar** is the Chairman of the Limit Revision Committees
- **Ms. Sermin Nazime Sarac Sosanoglu** is the Chairman of Remuneration Committee
- **Ms. Natia Janelidze** is the Chairman of the Risk Committee
- **Ms. Tamar Sanikidze** is the Chairman of the Audit Committee

Risk committee

Risk Committee is responsible for providing recommendations and views to the supervisory council regarding existing and future risk appetite. The committee monitors how adequately the Bank is managed in compliance with the Bank's risk policies. The duties of the Risk Committee of the Supervisory Council are as follows:

- Discussing risk strategies on aggregate and individual risk basis and submitting respective recommendations to the Supervisory Council, including for the Bank's current and future Risk Appetite
- Informing the Supervisory Council on the Bank's Strategy and supporting the Supervisory Council in the implementation of this strategy by the Management
- Preparation and submitting of reports to the Supervisory Council about risk culture in the Bank and discussing the Bank's risk policies, at least on an annual basis
- Monitoring the Board of Directors
- Cooperating with and monitoring the activities of CRO
- Proposing recommendations to the Supervisory Council related to effectiveness of Risk Strategies and Policies including preservation of capital sufficiency for identified risks
- Monitoring Capital and Liquidity Management Strategies as well as other type of risks such as Credit, Market, Operational and Reputational risks in order to ensure compliance with the Bank's Risk Appetite
- Reporting to the Supervisory Council about identified material risks and other issues, including effectiveness of Risk Management and Internal Control System Structures, effective functioning and continuity
- Monitoring whether client pricing is in accordance with the Bank's Business Model and Risk Structure or not
- Auditing the compliance of the pricing model with Bank's Risk, Equity and Liquidity Structure
- Determination of nature, scope, form and frequency of Strategy and Risk Reports
- Assessment of the remuneration system and provision of relevant reports

Corporate Governance (Continued)

Remuneration committee

Remuneration Committee supports the Supervisory Council mainly in:

- Creating effective compensation system and policies;
- Ensuring compliance between the compensation system of the Bank and the Bank's risk culture, long-term business strategy and risk appetite, the Bank's activities and control as well as legislative/supervisory requirements
- Ensuring a fair remuneration policy to attract, retain or motivate talent to ensure successful execution of the Bank's strategy.

Credit Committee

Credit Committee is responsible for establishing, developing, and offering Credit Policy for approval to the relevant body of the Bank. The Committee defines:

- The limits for borrowers - legal and physical persons;
- The limits for credit institutions, insurance companies and other financial institutions;
- Determines, confirms or revokes limits for Bank's transactions on financial markets;
- Determines credit risk limits for investments in securities and other derivatives.

The Credit Committee monitors the Bank's compliance with the approved limits. Reviews the loans applications, makes decision on restructuring loans, write-off loans and all other possible facts related to the Bank's credit risk.

Limit Revision Committee

Limit Revision Committee overviews the following:

- The total loan portfolio of the Bank including information about cash and non-cash loans as well as corporate bonds, segmentation, and NPL.
- Customers of the Bank, whose loans have been approved under SC Credit Committee's (loans from USD 1,500,000 up to 3,000,000) or Supervisory Council's (loans exceeding USD 3,000,000) authorization, are discussed individually.

Audit Committee

The Audit Committee is an independent body which controls the Bank's activities in every direction, at each level of the organization. The Committee is responsible for the minimization of all the possible risks for the improvement of the Bank's processes. The Audit Committee is under the direct supervision of the Supervisory Council and supports the Supervisory Council especially in the monitoring of the following matters:

- Preparation of balance sheet, financial statements and financial data;
- Efficiency of risk management system, especially internal control system, internal audit system and corporate compliance;
- Instructing the year-end audits paying special attention to the independence and performances of external auditors and disclose information in the Annual Report of Pillar 3;
- Ensuring that appropriate measures are taken and findings in the audits are corrected rapidly;
- Control and approval of the conformity of "Internal Control/Audit/Compliance Plans" submitted by the Management.

Besides the abovementioned committees the Bank has several internal committees which assist in effective control of the Bank's processes: Management Committee, Assets and Liabilities (ALCO) Committee, Credit, HR, Compliance, IT, Procurement, Risk and NPL and Branch Activity Coordination Committees.

Corporate Governance (Continued)

- The Loans up to \$ 1.5 million are approved by the Credit Committee and the Loans above \$ 1.5 million are approved by the Supervisory Council.

The Independent Members of the Supervisory Council

Ms. Natia Janelidze holds the position of a Regional Director/Chief Investment Officer at Gazelle Finance-organization which is not related to JSC Isbank Georgia or the Shareholder either directly or indirectly. In addition, she does not have and has not had any professional or personal relationship with the bank/the shareholder/administrators either directly or indirectly.

Ms. Tamar Sanikidze holds the position of Executive Director at World Bank funded - Innovation, Inclusion and Quality which is not related to JSC Isbank Georgia or the Shareholder either directly or indirectly. In addition, she does not have and has not had any professional or personal relationship with the bank/the shareholder/administrators either directly or indirectly.

Based on the analysis of the biographical data of Ms. Tamar Sanikidze and Ms. Natia Janelidze it was confirmed that they meet the criteria of the independent membership of the Supervisory Council defined in the paragraph "b" of the article 2 of the "Corporate Governance Code for Commercial Banks" approved by the National Bank of Georgia. There are no known circumstances or factors for the candidates that they violate/not comply with any defined criteria. Therefore, Ms. Tamar Sanikidze and Ms. Natia Janelidze have been selected by the shareholder of the JSC Isbank Georgia as the independent members of the Bank's Supervisory Council.

Risk Management

Strategy

By the end of each year the Bank performs detailed assessment of the current situation and based on the analysis determines Bank's strategy for the forthcoming three years. The Bank's strategy describes in details the main principles based on which the Bank plans to achieve its main goals and results. In the beginning of the 2023 the Bank outlined strategy for 2023-2025year. For achieving goals for 2025 the Bank is oriented on the following principles:

- Develop and provide wide range of digital products. The Bank plans to provide highly developed online service to its clients taking into account "Time is money" principle, which is critical for each client of the Bank.
- Expand customer base by offering wide range of products with flexible conditions and competitive prices. As the Bank is financially dependent on its mother company, the Bank is going to employ mother company's high reputation and reliability for raising funds with competitive prices. For this reason qualified staff at sales department is critically important; therefore, the Bank plans significant investments in this regard.
- Diversification and minimization of concentration risk, as the management believes that it is one of the most important and effective tool for sustainable growth.

The 2023-2025 strategy is approved by the Supervisory Board. For effective control of process the Bank defined strategy implementation plan. The management controls processes on the daily basis and informs executive and supervisory board on the current status to avoid delay in plan execution.

General risks

Based on the strategy of the Bank effective management of risks is an important challenge as the Bank operates in developing market.

Management of risk is fundamental to the business of banking and forms an essential element of the Bank's operations. The Bank's strong risk governance reflects the importance placed by Bank's Risks, Ethics and Compliance Committee on shaping the risk strategy and managing credit, financial and non-financial risks. All components necessary for comprehensive risk governance are embedded into risk organization structure: enterprise risk management; credit, financial and non-financial risks management; risk reporting and supporting IT infrastructure; cross-risk analytical tools and techniques such as capital adequacy management and stress-testing. The bank is exposed to credit risk, liquidity risk and market risk. It is also subject to various operating and business risks.

Risk Management (Continued)

The risk management policies aim to identify, analyse and manage the risks faced by the Bank, to set appropriate risk limits and controls, and to continuously monitor risk levels and adherence to limits. Risk management policies and procedures are reviewed regularly to reflect changes in market conditions, products and services offered and emerging best practice.

Management has overall responsibility for the oversight of the riskmanagement framework, overseeing themanagement of key risks and reviewing its risk management policies and procedures as well as approving significantly large exposures.

Management is responsible for monitoring and implementing risk mitigation measures, and ensuring that the Bank operates within established risk parameters. CRO is responsible for the overall risk management and compliance functions, ensuring the implementation of common principles and methods for identifying, measuring, managing and reporting both financial and non-financial risks. He reports directly to Risk Committee of Supervisory Council.

Credit, market and liquidity risks, both at the portfolio and transactional levels, are managed and controlled through a system of Credit Committees and Risk Management Division and ALCO. Such control arrangements guarantee that the Bank takes informed risk-taking decisions that are adequately priced, avoiding taking risks that are beyond the Bank's established threshold.

Both external and internal risk factors are identified and managed throughout the organization. Particular attention is given to identifying the full range of risk factors and determining the level of assurance over current risk mitigation procedures.

Market Risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rates, foreign exchange rates and equity prices. Market risk arises from open positions in interest rate instruments, which are exposed to general and specific market movements and changes in the level of volatility of market prices and foreign currency rates.

The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return on risk.

The Bank manages its market risk by setting open position limits in relation to financial instruments, interest rate maturity and currency positions. These are monitored on a regular basis and reviewed and approved by management.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Interest rate risk arises from potential changes in the market interest rates that can adversely affect the fair value or future cash flows of the financial instruments. This risk can arise from maturity mismatches of assets and liabilities, as well as from the re-pricing characteristics of such assets and liabilities. Interest margins may increase as a result of such changes, but may also reduce or create losses in the event that unexpected movements occur.

Exchange rate risk

Currency risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in foreign currency exchange rates. The Bank constantly monitors that the NBS limits of currency positions against regulatory capital are maintained. The Bank has assets and liabilities denominated in several foreign currencies.

Credit risk

Credit risk is the risk of financial loss to the Bank if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Bank has policies and procedures in place to manage credit exposures (both for recognized financial assets and unrecognized contractual commitments), including guidelines to limit portfolio concentration and the establishment of a Credit Committee to actively monitor credit risk. The credit policy is reviewed and approved by management.

The credit policy establishes:

- Procedures for reviewing and approving loan credit applications
- Methodology for the credit assessment of borrowers (legal entities and individuals)
- Methodology for the evaluation of collateral
- Credit documentation requirements
- Procedures for constant monitoring of loans and other credit exposures.

Risk Management (Continued)

For all loans to legal entities the Bank performs due diligence that focuses on the customer's business and financial performance.

Exposure to credit risk is also managed, in part, by obtaining collateral and personal guarantees. Valuation of collateral is performed by independent experts for loans mentioned above. The maximum exposure to credit risk is generally reflected in the carrying amounts of financial assets in the statement of financial position and unrecognized contractual commitment amounts. The impact of the possible netting of assets and liabilities to reduce potential credit exposure is not significant.

Liquidity risk

Liquidity risk is defined as the risk that the Bank does not have sufficient liquid financial resources to meet obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk arises because of the possibility that the Bank might be unable to meet its payment obligations when they fall due as a result of mismatches in the timing of the cash flows under both normal and stress circumstances. The Bank maintains liquidity management with the objective of ensuring that funds will be available at all times to honour all cash flow obligations as they become due. The liquidity policy is reviewed and approved by management.

The Bank seeks to actively support a diversified and stable funding base in order to be able to respond quickly and efficiently to unforeseen liquidity requirements.

The liquidity management policy requires:

- Maintaining a diverse range of funding sources;
- Managing the concentration and profile of debts;
- Maintaining debt financing plans;
- Monitoring liquidity ratios against regulatory requirements.

The liquidity position is monitored by the Finance Management Division and the Risk Management Division. Under the normal market conditions, information on the liquidity position is presented to the management on a weekly basis. Decisions on liquidity management are made by ALCO and implemented by the Treasury Division. In addition, the Bank monitors on a regular basis the liquidity ratio calculated in accordance with the NBG requirements.

The Bank annually implements funding strategy that is periodically reviewed according to market states. Liquidity is managed and monitored by treasury and is additionally controlled by the risk management division. Limits are approved by ALCO and supervisory board.

To manage liquidity risk the Bank monitors Liquidity Coverage Ratio (LCR) on daily basis. In addition, significant part of Bank's assets is held in highly liquid assets that reduces liquidity risk. To decrease liquidity risk the Bank holds reserves, amount of which is determined by the amount of raised funding, currency and types.

Operational risk

Operational risk is the risk of loss arising from system failure, human error, fraud and external events. When controls fail to operate effectively, operational risks can cause damage to reputation, have legal or regulatory implications, or lead to financial loss. The bank cannot expect to eliminate all operational risks, but it endeavors to manage these risks through a control framework and by monitoring and responding to potential risks. Controls include effective segregation of duties, access, authorization and reconciliation procedures, staff education and assessment procedures, such as the use of internal audit.

Remuneration

1. Introduction

- 1.1. This Remuneration Policy (hereafter "Policy" or "Remuneration Policy") is developed in accordance with the Charter of JSC "Isbank Georgia" (hereafter "Bank"), "Corporate Governance Code for Commercial Banks" and the requirements of the current legislation of Georgia.
- 1.2. The Policy envisages to create a remuneration system based on a sound corporate culture and effective management of risks, also considers long-term interests of the organization and does not encourage taking excessive risks.
- 1.3. This Policy establishes the remuneration system for the entire bank and additionally defines criteria for the members of the Supervisory Council, members of the Board of Directors, persons undertaking a material risk and persons having the control function.
- 1.4. The terms "Supervisory Council" and "the Board of Directors" used in this policy have the following meanings:
 - Supervisory Council – a managing body of the Bank, which according to the Bank's charter oversees the activity of the Bank and consists of at least 3 members.
 - The Board of Directors - a managing body of the Bank which according to the Bank's charter manages and represents the Bank and is responsible for performing its functions.

2. Management framework and supervision

- 2.1. The Bank's remuneration policy and its basic principles are defined and approved by the Supervisory Council.
- 2.2. This Supervisory Council controls this Policy and its compliance with the requirements through the Remuneration committee which is subordinated to it.
- 2.3. Composition, powers and obligations of the remuneration committee are defined by the Charter of the Remuneration committee. The committee revises and reviews remuneration plans, processes and results and ensures compliance of remuneration system with the bank's activities and corporate culture, long-term business plans and risk management, as well as the current legislation.

3. Principles and goals of remuneration policy

- 3.1 Remuneration system represents one of the basic elements of the Bank's corporate governance mechanism and facilitates achievement of the following goals:
 - 3.1.1. improvement of risk management system;
 - 3.1.2. increase of the competitiveness of the bank at the employment market;
 - 3.1.3. ensure attraction, selection, development and retention of qualified employees;
 - 3.1.4. offer to the employees effective, competitive remuneration which corresponds to the market;
 - 3.1.5. encourage high quality of work performed;
 - 3.1.6. increase work effectiveness of employees;
 - 3.1.7. support fair and transparent remuneration practice;
 - 3.1.8. ensure compliance of remuneration policy with the Bank's values, applicable internal regulations and legislative framework.

3.2 The Bank's remuneration system is based on the following principles:

- 3.2.1 fairness - remuneration through impartial assessment, on the basis of preliminarily defined criteria, without discrimination;
- 3.2.2 sustainable development – the Bank sees the employees as the most significant asset, which on its part, facilitates achievement of long-term goals of the Bank and its sustainable development;
- 3.2.3 simplicity and transparency – easily perceptible, measurable and available remuneration policy.
- 3.2.4 Purpose of remuneration system of the bank should encourage actions towards sound corporate governance and risk management.

Remuneration (Continued)

4. Remuneration components

The Bank's remuneration system consists of the following two components:

- 4.1.1. Fixed remuneration
- 4.1.2. Variable remuneration

4.2. Fixed remuneration

- 4.2.1. The Bank's employees receive a remuneration defined by the Labor Agreement on a monthly basis, which reflects and corresponds to employee education, qualification, competence and position-related role and responsibilities specified in job description.
- 4.2.2. Employee fixed remuneration will not be differentiated based on gender.
- 4.2.3. For the purpose of maintaining a competitive fixed remuneration, the Bank might revise the remuneration of employees on annual basis.

4.3 Variable remuneration

- 4.3.1 The main goal of variable remuneration is to increase motivation and productivity of the Bank employees and reward high quality performance. Variable remuneration at the Bank is defined based on the Bank's financial and non-financial indicators and individual performance results of the employees.
- 4.3.2 The Bank's entire variable remuneration policy should not prevent the Bank from adhering to the established coefficient of capital adequacy and compliance with other norms. In case of need, by non-payment of variable remuneration, the Bank should be able not to allow reduction of the regulatory capital.
- 4.3.3 Variable remuneration shall be paid in the form of a bonus. Total amount of bonus is defined by the Supervisory Council and represents the Bank's right and not the obligation.
- 4.3.4 The Supervisory Board determines a maximum percentage of performance based variable remuneration relative to the fixed remuneration in order to ensure an appropriate balance between fixed and variable pay. Maximum ratio of annual variable performance based remuneration – annual variable component of remuneration of material risk takers shall not exceed 100% of their annual fixed component of the total remuneration.
- 4.3.5 In exceptional cases, with reasonable basis, majority of shareholders can approve a higher maximum level of the ratio between the fixed and variable components with a condition that the amount of the annual variable

remuneration shall not exceed 200% of the fixed component of the annual remuneration and the requirements established by the Corporate Governance Code shall be complied.

- 4.3.6 The bank shall immediately inform NBG about the proposed maximum ratio of annual variable remuneration and provide arguments that the new ratio shall not obstruct the bank to comply with requirement including capital adequacy.

4.4. Assessment of work performed by employees and eligibility for variable remuneration

4.4.1. The work performed by the employees is assessed by their line manager or other related managers, according to the set goals, KPIs-Key Performance Indicators, and outcomes by end of the year Employee shall become eligible for variable remuneration in case he/she has worked at least for six months during the year of appraisal.

4.4.2 For persons undertaking a material risk (except members of the Supervisory Council) accrual period for variable remuneration shall include performance of the whole year.

Additional criteria of remuneration system for members of Supervisory Council, members of Board of Directors, persons undertaking material risk and persons having a control function

5.1 Members of Supervisory Council

- 5.1.1 Remuneration of the members of the Supervisory Council should correspond to their engagement, undertaken responsibilities, made efforts and dedicated time resources. Their remuneration should not compromise their independence.
- 5.1.2 Remuneration of the members of Supervisory Council shall be defined by the General Meeting of Shareholders and shall include only fixed remuneration. At the same time, the difference between the highest annual remuneration and the lowest annual remuneration of the members of Supervisory Council shall not be more than 30% of the lowest annual remuneration.

5.2 Persons undertaking a material risk

5.2.1. Persons undertaking a material risk at the Bank shall mean the employees preliminarily identified by the Bank whose activities are related to occurrence of a material risk and therefore, may have a significant influence on the Bank's risk profile.

5.2.2. Persons undertaking a material risk at the Bank shall be identified according to the following qualitative and quantitative criteria:

5.2.2.1. the person is a member of Supervisory Council

5.2.2.2. the person is a member of Board of Directors

- CEO
- Deputy CEO
- Director
- Risk Director

5.2.2.3. the person leads the material business division/unit

- Head of AML and Compliance
- Head of Treasury
- Head of Legal

- Chief Accountant
- Head of Corporate Sales and Marketing Unit
- Head of Underwriting

5.3 Employees having the control function

5.3.1. Persons having the control function at the Bank imply employees responsible for checking the process effectiveness and efficiency, impartial assessment and respective reporting. Positions include Head of Internal Audit, Head of Risk Management and Head of compliance services.

5.3.2. Remuneration of employees having the control function at the Bank, for the purpose of maintaining their independence, does not depend on financial results of the business activities which are checked and/or monitored by the above persons.

6. Deferral principles

6.1 Deferral period for variable component constructing no less than 40% of remuneration and for variable component constructing no less than 60% of remuneration (exceeds 100% of annual fixed remuneration or/and GEL 500,000 or equivalent) shall be deferred for 3 to 5 years.

6.2 For Board of Directors deferral period shall be not be less than 5 years and for other material risk takers (excluding supervisory council members) shall be no less than 3 years.

6.3 Deferred remuneration will be either vested fully at the end of deferral period or distributed during deferral period with equal payments. In case of equal payment option, first payment will be completed within no earlier than first year after deferral start date and consecutive payment will not be completed in more frequently than 12 months period.

6.4 As for Isbank Georgia - bank, not in the list of critical system banks and/or critical banks, deferral period for material risk takers (excluding supervisory council members) will not be less than 3 years. Making different decision is possible if annual variable remuneration of individual is of non-material scope (does not exceed 20% annual fixed remuneration)

7. Corrections to Variable Remuneration

7.1 Considering major principles of Labor Code, total variable compensation may become subject to correction. Variable compensation can be subject to the following corrections:

7.1.1 Correction before awarding remuneration based on performance and risks

7.2.2 Correction after awarding remuneration based on performance and risks;

7.2 In case of decreasing/cancelling variable remuneration, using above-mentioned corrections will comply with the following criteria:

7.2.1 economic capital, economic profit, return on risk-weighted assets

7.2.2 violation of legislation compliance, risk limits, violations identified by internal control function;

7.2.3 Individual performed misconduct causing considerable damage to the bank

7.2.4 Individual does not satisfy compliance standards

7.2.5 Individual has a misconduct or significant misbehaviour including violating code of ethics or internal regulations

7.2.6 Considerable worsening of the bank and/or related structural unit financial indicators (for example particular business indicators) caused by individual

7.2.7 Significant risk management related errors of the bank and/or structural unit where individual with awarded remuneration is employed and the errors are caused by the individual;

7.2.8 Significant increase of economic/supervisory capital requirements of the bank/structural unit. In case of calling awarded variable remuneration back, mentioned issues/problems must be caused by individual's participation

7.2.9 Conduct by the individual which urged launching supervisory sanctions for the bank

8. Final provisions

- 8.1 This Policy shall become effective upon its approval by the Supervisory Council.
- 8.2 The policy will be reviewed as and when required due to the changes in the remuneration regulations/ standards/ best practices/Legislation of Georgia as appropriate and/or the Bank's annual results by the Supervisory Council. In any case, the Policy will be regularly reviewed annually.
- 8.3 The issues which are not governed by this Policy shall be governed by the "Corporate Governance Code for Commercial Banks" and the current legislation of Georgia.

Major principles of bonus calculation

1. Bonus accrual begins from 80% target attainment rate of Scorecard
2. Gross Bonus amount is limited with 5% of Annual profit of the year

Factors which will cause cancelation of awarding variable remuneration can be one of the following criteria:

- Difference between capital requirement and factual data equals 1%
- And/or overall scorecard of the bank performance is less than 80%

Annual bonus allowance and components

Once bank's total target on scorecard is achieved by minimum 80% bonus availability becomes active.

Bonus components:

- ✓ Core value of the bonus, directly linked to bank's target achievement (minimum 80%)
- ✓ Targets Attainment - applicable for the staff who sell bank products
- ✓ Impact Adjustment – adjusting individuals' impact on results
- ✓ Employee Performance Appraisal - conducted for all employees, excluding office support staff (cleaning ladies)

Calculation of bonus for 4 Employee Categories

1. Category: Personnel with **Sales Function**
2. Category: Personnel with **Corporate Function** (FI, Treasury, Finance, Underwriting)
3. Category: Personnel with **Support Function**
4. Category: Personnel with **Control Function** (AML&Compliance, Risk, Internal Audit)

| | Core Value (a) | Target Attainment Value (b) | Impact Adjustment (c) | Appraisal Score (d) | Final Score |
|-------------|----------------|-----------------------------|-----------------------|---------------------|------------------|
| 1. Category | 25% | 200% | Variable | Variable | $(a+(b*c))*SR*d$ |
| 2. Category | 100% | 25% | Variable | Variable | $(a+(b*c))*SR*d$ |
| 3. Category | 105% | 0% | 0% | Variable | $a*SR*d$ |
| 4. Category | 105% | 0% | 0% | Variable | $a*d$ |

Environmental and Social Governance

The following document is approved by the BOD of Isbank Georgia. Any changes and amendments should be approved in the similar manner.

Credit Risk Management Division is responsible for implementation and execution of the procedures defined by this policy. Instruction is reviewed on at least an annual basis or in cases of need.

The policy is valid from **May, 2021**.

Isbank Georgia recognizes that its operations can have direct and indirect impacts on the environment and the community in which it operates. The bank's objective is to responsibly manage the environmental and social risks associated with its operations in order to minimize impacts on the environment and our stakeholders, and to enhance long term returns to our shareholders. In order to communicate this philosophy to its stakeholders and shareholders, the Board of Directors of Isbank Georgia has adopted this **Environmental and Social Risk Management Policy** which describes the bank's commitment to sustainable finance as an integral component of responsible corporate governance.

The bank is committed to conducting its own business in an environmentally and socially responsible manner. In maintaining international best practice in environmental and social risk management, we are committed to ensuring our customers are also fulfilling their environmental and social responsibilities. We recognize that identifying and quantifying environmental and social risks should be part of the normal process of risk assessment. With regard to our customers, we regard compliance with applicable environmental, health and safety and labour regulations and the use of sound environmental, health and safety, low-carbon economy (LCE) and labour practices as important factors in demonstrating effective corporate governance.

In order to ensure that appropriate, risk-based, sector specific, environmental and social risk assessment is applied to its commercial lending activities; Isbank Georgia has developed **Environmental and Social Risk Management Procedures**. These procedures are fully integrated into the credit risk management process in the bank and are routinely applied to all commercial (i.e., with legal entities) transactions.

The **Environmental and Social Risk Management Policy** and the **Environmental and Social Risk Management Procedures**, along with the tools necessary to implement the procedures, comprise the core components of the bank's Environmental and Social Risk Management Policy (ESRMP). The bank has appointed:

An Environmental and Social Risk Manager with management responsibility for ensuring proper operation and maintenance of the ESRMP, Managing resources (budget and staff) for E&S risk management and training;

Credit Officer with the responsibility of evaluating the environmental compliance of a target client company with the Applicable Requirements; including site visits, collection of necessary E&S documentation (e.g., information, permits, authorizations), and preparation of E&S due diligence reports (or E&S section of the credit application); Ensuring appropriate environmental representations, warranties, and covenants are incorporated into all legal agreements; Checking projects in the portfolio against on-going compliance with the Applicable Requirements on a regular basis including site visits, annual monitoring;

The objective of applying these procedures is to focus upon the environmental and social issues associated with commercial lending and investments in order to maximize the opportunities for environmentally and socially responsible and sustainable economic development, and to minimise the bank's exposure to environmentally or socially derive financial, reputational and legal risks and liabilities associated with its financial transactions.

The bank's Environmental and Social procedures include transaction Qualification, and the Categorization, Identification and appropriate Assessment, Mitigation and Control, and Monitoring and Reporting of environmental and social risks. The procedures incorporate appropriate consideration of ESG Reporting and Disclosure Principles (February, 2020) and IFC Performance Standards (PSs), and Performance Requirements (PRs).

Implementation of this ESRMP will ensure the bank's own operations comply with the Pillar 3 Regulations, the Corporate Governance Code for Commercial Banks of Georgia, the Roadmap for Sustainable Finance in Georgia, ESG standards (NBG, 2018) and IFC Regulations. For all commercial transaction, the bank will endeavour to ensure that customers demonstrate an organized and systematic approach to environmental and social risk management to ensure compliance with local and national environmental, health and safety, and labour regulations and standards.

The procedures provide for application of the Performance Standards and Performance Requirements where the activity financed presents significant social or environmental risks. In such cases the applicability of Performance Standards and Performance Requirements is appropriately reviewed and a determination made as to their specific applicability to a transaction. Where a particular PS/PR is deemed applicable to a transaction, the bank will work with the client to ensure appropriate measures are implemented to avoid or minimize environmental and social risks. In certain situations, the bank may seek the counsel and/or assistance of its IFI partners in ensuring that environmental and social risks are acceptably managed before providing finance to the customer.

Under the bank's procedures, the determination of appropriate assessment of environmental and social risk is dependent upon on the following factors relevant to each transaction: type of loan, purpose of the loan, amount, term, collateral, and industrial sectors involved.

Environmental and Social Governance (Continued)

Implementation of the bank’s environmental and social risk management procedures includes appropriate consideration of the following:

Qualification – Is the proposed business activity subject to restrictions by IFIs;

Categorization – What is the relative level of environmental and social risk typically associated with such business activities;

Evaluation - Identification and appropriate assessment of actual environmental and social impacts and risks associated with this customer’s activities, and of the customer’s capacity, commitment and resources to responsibly manage those risks and minimize potential impacts;

Control – Identification of appropriate mitigation measures, codification of such measures (e.g., action plans, covenants, etc.);

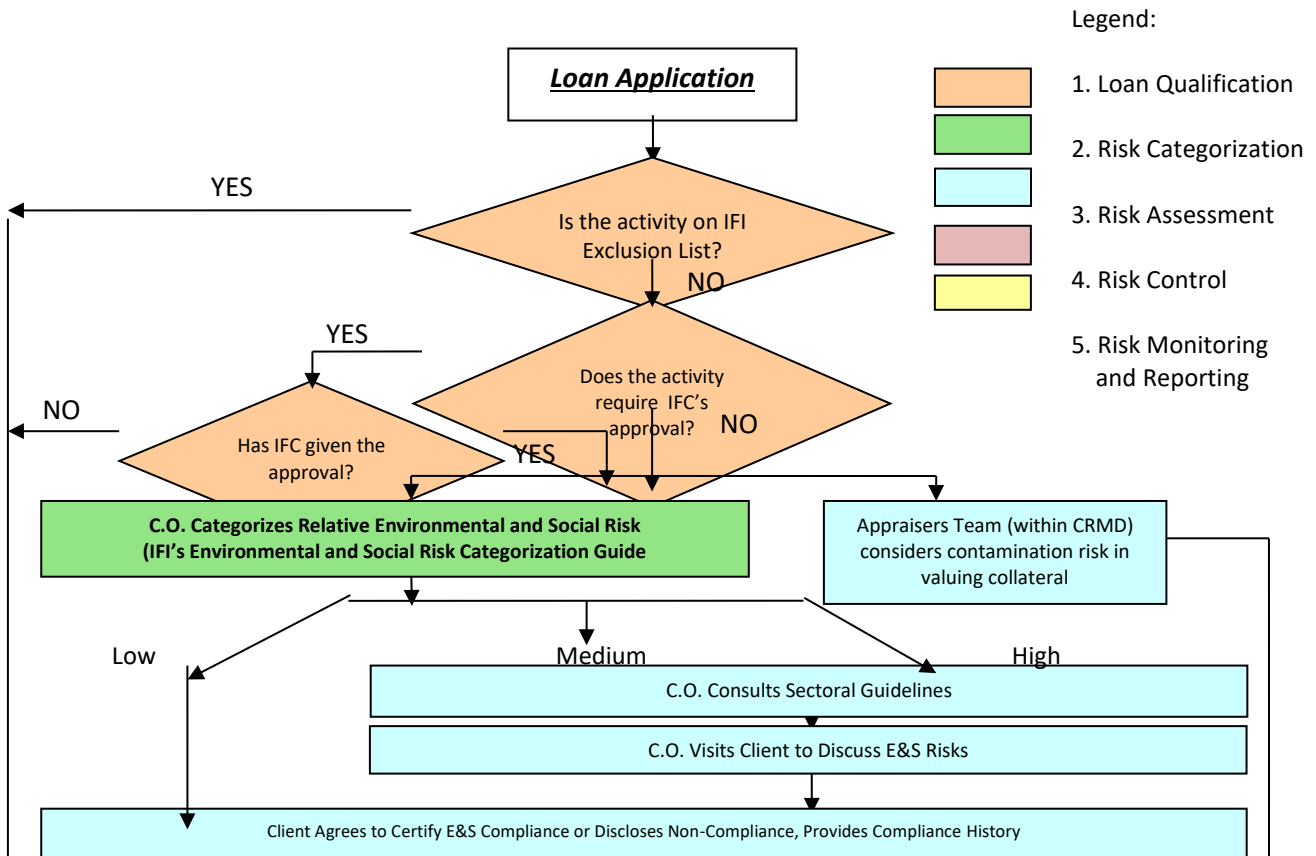

Monitoring of, and Reporting according to ESG Reporting and Disclosure Principles and IFC regulations.

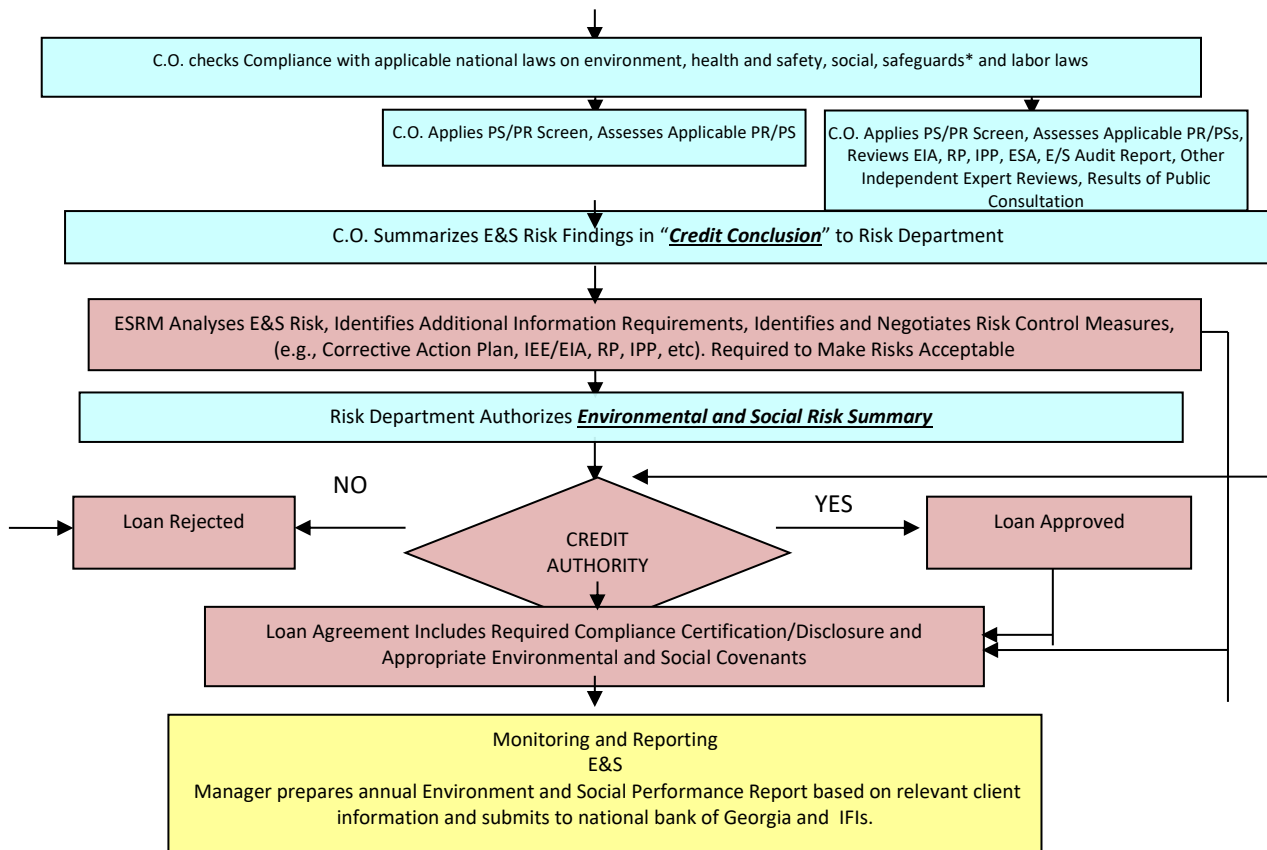

In implementing these procedures, the bank routinely conducts trainings of relevant officers in collaboration with IFIs and relies of the use of a variety of publically available environmental and social risk management tools. Isbank’s training plan includes the following:

- [Sustainability Training and E-Learning Program \(STEP\) training to: https://www.ifc.org/wps/wcm/connect/topics_ext_content/ifc_external_corporate_site/sustainability-at-ifc/company-resources/tools+for+clients;](https://www.ifc.org/wps/wcm/connect/topics_ext_content/ifc_external_corporate_site/sustainability-at-ifc/company-resources/tools+for+clients)
- and listen to IFC webinars related to ESRMP: [https://www.ifc.org/wps/wcm/connect/topics_ext_content/ifc_external_corporate_site/sustainability-at-ifc/company-resources/ifc_sustainability_webinars;](https://www.ifc.org/wps/wcm/connect/topics_ext_content/ifc_external_corporate_site/sustainability-at-ifc/company-resources/ifc_sustainability_webinars)
- ESRMP related webinars, available at: https://www.ifc.org/wps/wcm/connect/topics_ext_content/ifc_external_corporate_site/sustainability-at-ifc/company-resources/ifc_sustainability_webinars#FI-DD, specifically:
- [Practical Guidance on Conducting Environmental & Social \(E&S\) Due Diligence Aligned with the IFC Performance Standards for Financial Intermediaries: https://www.youtube.com/watch?v=JWjCwUQb0D4&feature=youtu.be](https://www.youtube.com/watch?v=JWjCwUQb0D4&feature=youtu.be)
- [Environmental and Social Management Systems and Tools for Financial Institutions Financing to SMEs - Sandra Abiola: https://www.youtube.com/watch?v=g8ni5z4nkzU&feature=youtu.be](https://www.youtube.com/watch?v=g8ni5z4nkzU&feature=youtu.be)

A Schematic representation of Isbank’s environmental and social risk management procedures, describing the sequence of steps incorporated into the credit appraisal process to ensure the environmental and social risk assessment is appropriate to the perceived environmental and social risks associated with the transaction, is presented below:

SCHEMATIC - ENVIRONMENTAL AND

* Social Safeguards include laws related to IP (Indigenous Peoples) and IR (Involuntary resettlement)

EIA = Environmental Impact Assessment, ESA = endangered species act, IEE = initial environmental examination, IFI = international financial institution, IPP = indigenous peoples plan, PR = performance requirement, PS = performance standard, RP = Resettlement Plan. SR = Safeguard Requirement.

1. Transaction Qualification

Each employee from Corporate, Small and Medium sector is responsible for checking the IFI exclusion List (Annex A) to determine whether or not the proposed activity is excluded from financing.

If the proposed activity is not excluded, Credit officer will determine if IFC approval is required prior to financing companies. If such approval is required, Environmental and Social Risk Manager will send request for approval to IFC contact person.

If the transaction is not excluded, if prior approval of IFC is not required, or if the required approval is received from IFC, the proposed transaction will be deemed qualified for financing by Credit officer. Documentation of the loan qualification will be recorded by Credit officer in the borrower files. After the loan disbursement all documents should be kept in Credit Administration Department. Environmental and social risk manager conduct risk assessment of the operation according to the below environmental and social risk management procedures.

2. Environmental and Social Risk Categorization

Categorization of Isbank Georgia's environmental and social risks is conducted according to the requirements of the **IFT's and National Bank of Georgia**:

Low Risk - transactions with minimal or no adverse social or environmental impacts, which are not generally subject to further assessment (beyond their identification as such) except for the requirement for customer's [assent/certification/disclosure] of compliance/non-compliance with international and national environmental, health and safety and labour laws and regulations.

Medium Risk – transactions with limited potential for adverse social or environmental impacts that are few in number, generally site-specific, largely reversible, clearly evident at the time of the assessment, and readily addressed through mitigation measures, which typically require a limited or focused environmental and/or social assessment, or straightforward application of environmental sitting, pollution standards, design criteria, or construction standards.

High Risk – transactions with potential highly significant, negative and/or long-term environmental and/or social impacts, the magnitude of which may be difficult to determine at the loan application stage, which typically require analysis of environmental and social risks and impacts in the context of the total area of influence of the customer's operations. As part of the risk assessment, the client will identify individuals and groups that may be differentially or disproportionately affected by its operations.

High/Category A - with potential significant adverse social or environmental impacts which may be diverse, irreversible or unprecedented. The assessment of which usually requires the inputs of independent external experts, and may require the involvement of IFI E&S specialists in the due diligence assessment process.

Qualified transactions will be categorized (including NACE code, according to the relative level of environmental and social risk typically associated with such transactions) by Credit officer and will be authorised by Environmental and Social Risk Manager.

In addition to those transactions categorized as low risk in the Environmental and Social Risk Categorization guide, Isbank Georgia, as a matter of policy, also classifies **all commercial transactions in amounts less than USD 1 mln and with less than 36 months maturity low environmental and social risk**, as such transactions are generally considered to have minimal or no adverse environmental or social impacts.

For all transactions categorized as low risk, customers are expected to comply with applicable environmental, health and safety, social safeguard, labour Laws and other requirements. Performance Standards/Performance Requirements/ are not applied to transactions categorized as low risk.

For transactions categorized as medium or high environmental and/or social risk, the bank's environmental and social assessment will be appropriate to the nature and scale of the client's operations and commensurate with the level of environmental and social risks and impacts. Clients are expected to comply with applicable environmental, health and safety, labour, and public disclosure and consultation regulations and standards, and where the activity financed presents significant environmental or social risks, will be subject to compliance with PS/PR/ within a reasonable period of time.

For High Risk/A Category transactions Isbank Georgia is required to notify IFC.

For High Risk/Category A Transactions external consultant is to be engaged for ESDD.

For certain high risk transactions and for all Category A transactions, in addition to the above reference requirements for medium and high risk transactions, the client will be required to provide independent technical evidence of the responsible management (control and mitigation) of potential environmental and social risks associated with its relevant operations and compliance with all relevant PS/PRs.

Environmental and Social Governance (Continued)

3.Environmental and Social Risk Assessment

Low Risk Transactions

For transactions categorized as low environmental and social risk, the credit officer will inform the client about the bank's requirement for certification by the client of compliance with all environmental, health and safety and labour laws and regulations (or disclosure of material non-compliance). C.O. will document E&S information in the Credit Conclusion.

The Credit officer checks compliance with appropriate national laws on environment, health and safety, social safeguards, and labour laws.

Medium Risk Transactions

In addition to the environmental and social requirements described above for low risk transactions, for all transactions categorized as medium environmental and/or social risk the Credit officer will also identify and appraise the potential environmental and social risks associated with the client's business activity and operations.

Credit officer will use a relevant sectoral guidelines published by IFC to become familiar with the potential E&S risks associated with this client's business activity. After analysing potential E&S risks the Credit officer will visit the customer to discuss and appraise such potential risks to see if they are relevant to his operations and if the customer is responsibly managing those risks.

During the site visit, the Credit officer will review compliance with applicable national laws on environment, health and safety, social safeguards and labour laws and also utilize the *PS/PR Screening Guide* (Annex B) to review the client's operations against the PS/PRs to determine whether or not any of the PS/PRs are applicable to the proposed transaction. If any of the PS/PRs are applicable, the Credit officer will have to evaluate compliance with applicable PS requirements inform the Client of the relevant environmental or social issues and the requirements engendered by the application of the relevant PR/PS.

Credit officer will write a short environmental and social risk information memo for review by the Social and Environmental Risk Manager before the submission to the credit committee. The environmental and social risk information memo will become part of the client's credit files.

High Risk Transactions

In addition to the environmental and social requirements described above for medium risk transactions, **for all transactions categorized as high/ category A environmental or social risk Isbank Georgia will hire external consultant in order to determine** whether all applicable environmental and social safeguard and other requirements (related assessments and/or audits) have been performed, whether all required public disclosures/stakeholder engagements have occurred, and whether or not the client has implemented all appropriate mitigating actions, or has a plan in place to do so in an acceptable time frame.

The external consultant should be hired for ESDD of all high/category A projects in order to evaluate compliance with applicable requirements (incl. but not limited to host country environmental and social law and regulation and IFC Performance Standards).

All High Risk/category A projects will be screened in accordance with PS/PR assessment guide as per the Annex B.

Category A Transactions

For Category A transactions, or when the transaction involves a "Greenfield" project (a totally new project, as opposed to an expansion of an existing facility) or a major expansion or modification or high risk activities, the credit officer will ensure that necessary Environmental Impact Assessment (EIA, RP, IPP), public disclosure, and stakeholder engagement requirements have been fulfilled by the client.*

*If a transaction has potential Environmental and Social impacts leading to a classification of High or A Category, the project's Environmental and/or Social safeguard documents are reviewed and evaluated against the safeguard requirements of the IFIs.

All Transactions

The Environmental and Social Risk Manager is responsible for the final assessment of environmental and social risks and for ensuring that all necessary measures to avoid and/or minimize such risks are, or will be, in place. The credit officer will utilize publicly available tools, including but not limited to the e-Manual, and the IFC ES Toolkit, to determine if the appropriate and required environmental and social information regarding transaction risks is available, and if the client has, or will have, the necessary safeguards in place to allow the activity to proceed in an environmentally and socially responsible manner.

Environmental and Social Governance (Continued)

Where real estate is pledged as collateral, with the market value more than GEL 1 mln the internal evaluator will consider the potential of land contamination. The evaluator will attempt to determine if the land was contaminated as a result of prior use, if there has been environmental and social audit ever and will provide a brief description of this research in the act of evaluation which will become part of the client's credit files. In the presence of perceived significant risk of contamination, and in the absence of a relevant Environmental Audit, the bank may require the client to commission an Environmental and Social Audit (including a corrective action plan) prior to loan approval.

The objective of environmental and social assessment is to determine if the client conducts their operations in an environmentally and socially responsible manner. In order for bank staff to make such judgements, they must understand the general environmental and social obligations of their clients. To ensure that bank staff is fully informed in this regard, the Corporate and SME legal staff will be responsible for monitoring legal developments with regard to environment, health and safety, and labour issues, and informing the department of any significant proposed or actual changes materially affecting the bank's clients.

4. ENVIRONMENTAL AND SOCIAL RISK CONTROL

Credit officer is responsible for ensuring appropriate risk control measures based upon the assessment of associated environmental and social risks and upon the steps determined by the client to mitigate E&S risks. Depending upon the perceived environmental and social risks, the risk control strategy may involve requiring the client to take specific actions, make specific investments, or develop and implement specific environmental or social action plans to avoid or mitigate environmental and/or social impacts, and/or specific monitoring and reporting requirements. Such requirements may be covenanted in the *Loan Agreement*.

As a minimum, the *Loan Agreement* requires all clients to certify in writing that, to the best of their knowledge, their operations comply with all local and international environmental, health and safety, and labour regulations and standards; or to disclose to the bank any non-compliance.

5. MONITORING

Environmental and social risk monitoring is carried out within the existing monitoring procedures of Isbank Georgia. The credit officer will be periodically monitoring the risks according to its category (minimum semi-annually). The info memo related to the significant risks will be attached the general monitoring and kept together with client's credit files.

Emergency situations

The bank's clients are obliged to report accidents or incidents which have or are likely to have a material adverse effect on the environment, health or safety of persons (e.g., employees, neighbours, customers), including any remedial action planned or taken by the client in response to the accident/incident in compliance with legal regulations, to the bank.

Notification about an extraordinary event is compulsory for all loans of the Bank irrespective of the environmental risk level, amount, type or term.

In particular, the following should be regarded as accidents/incidents having a material adverse effect on the environment, health or safety:

- **If any applicable environmental, health and safety, or labour law requires notification of the incident/ accident to any governmental authority,**
- **If the incident / accident involves significant pollution, fatality or multiple serious injuries requiring hospitalisation, or**
- **If the incidents/accidents have become general public knowledge through media coverage or otherwise.**

Isbank Georgia will notify its IFI partners and National Bank of Georgia of any emergency situations (accident/incident) related to one of its clients which has or is likely to have a materially adverse effect on the environment, health or safety within 3 business days of becoming aware (whether through client notification or otherwise) of such as accident/incident.

6. REPORTING AND DISCLOSURE

Reporting to the National Bank of Georgia and IFC.

Isbank Georgia will communicate ESG related information in accordance with the following elements which are reflected in the reporting format (Annex D): a) business model, b) policies and due diligence; c) outcomes, d) principle risks and management, and e) key performance indicators. The reporting format is in compliance with ESG Reporting and Disclosure Principles and IFC regulations.

7. Annex A – IFI EXCLUSION LIST

List of activities which are excluded from financing by Isbank Georgia in line with the Exclusion List of the IFC.

1. The Bank shall not finance the production, or trade in any product or activity deemed illegal under laws or regulations of the Republic of Georgia or international conventions and agreements.
2. Without limiting the generality of the above, the Bank shall not finance or approve loans in the following activities:
 - a. Production or activities involving harmful or exploitative forms of forced labour¹ or child labour^{2 15}
 - b. Production or trade in any product or activity deemed illegal under host country laws or regulations or international conventions and agreements
 - c. Any business relating to pornography or prostitution.
 - d. Trade in wildlife or wildlife products regulated under CITES⁵
 - e. Production or use of or trade in hazardous materials such as radioactive materials⁶, including nuclear reactor and components thereof, unbounded asbestos fibers¹⁴
 - f. Cross-border trade in waste and waste products unless compliant to the Basel Convention and the underlying regulations.¹⁷
 - g. Drift net fishing in the marine environment using nets in excess of 2.5 km in length
 - h. Marine and coastal fishing practices, such as large-scale pelagic drift net fishing and fine mesh net fishing, harmful to vulnerable and protected species in large numbers and damaging to marine biodiversity and habitats
 - i. Production, use of or trade in pharmaceuticals³, pesticides/herbicides⁴, chemicals, ozone depleting substances⁸ and other hazardous substances¹⁹ subject to international phaseouts or bans.
 - j. Destruction⁹ of Critical Habitat¹⁰.
 - k. Activities prohibited by host country legislation or international conventions relating to the protection of biodiversity resources¹⁸.
 - l. Significant alteration, damage, or removal of any critical cultural heritage or cultural heritage²⁰
 - m. Production and distribution of racist, anti-democratic and/or neo-Nazi media.
 - n. Production or trade in¹² weapons and munitions, including paramilitary materials^{13 21}
 - o. Production or trade in¹² tobacco¹³
 - p. Production or trade in¹² alcoholic beverages (excluding beer and wine).¹³.
 - q. Gambling, casinos and equivalent enterprises^{12 13}.
 - r. Production or use of or trade in products containing PCBs⁷ and other hazardous chemicals¹⁹
 - s. Production or trade in wood or other forestry products other than from sustainably managed forests
 - t. Commercial logging operations or the purchase of logging equipment for use in primary tropical moist forests or old-growth forests
 - u. Shipment of oil or other hazardous substances in tankers which do not comply with IMO requirements²⁰
 - v. Trade in goods without required export or import licenses or other evidence of authorization of transit from the relevant countries of export, import and, if applicable, transit.
 - w. Any commercial logging operations for use in primary tropical moist forest

Foot Notes:

- 1) Forced labour means all work or service, not voluntarily performed, that is extracted from an individual under threat of force or penalty as defined by ILO Conventions.
- 2) Employees may only be taken if they are at least 14 years old, as defined in the ILO Fundamental Human Rights Conventions (Minimum Age Convention C138, Art. 2), unless local legislation specifies compulsory school attendance or the minimum age for working. In such cases the higher age shall apply.
- 3) A list of pharmaceutical products subject to phaseouts or bans is available at <http://www.who.int>.
- 4) A list of pesticides and herbicides subject to phaseouts or bans is available at <http://www.pic.int>.
- 5) CITES: Convention on International Trade in Endangered Species or Wild Fauna and Flora. A list of CITES listed species is available from the EBRD and at <http://www.cites.org>,
- 6) This does not apply to the purchase of medical equipment, quality control (measurement) equipment and any other equipment where IFC, DEG and other IFIs consider the radioactive source to be trivial and/or adequately shielded.
- 7) PCBs: Polychlorinated biphenyls, a group of highly toxic chemicals. PCBs are likely to be found in oil-filled electrical transformers, capacitors and switchgear dating from 1950-1985.
- 8) Ozone-depleting substances; Chemical compounds, which react with and delete stratospheric ozone, resulting in "holes in the ozone layer". The Montreal Protocol lists (ODS) and their target reduction and phase-out dates. A list of the chemical compounds regulated by the Montreal Protocol, which includes aerosols, refrigerants, foam blowing agents, solvents, and fire protection agents, together with details of signatory countries and phase out target dates, is available from the EBRD and at http://ozone.unep.org/new_site/en/index.php
- 9) Destruction means the (1) elimination or severe diminution of the integrity of a habitat caused by a major, long-term change in land or water use or (2) modification of a habitat in such a way that the habitat's ability to maintain its role (see footnote 8) is lost.
- 10) Critical habitat is a subset of both natural and modified habitat that deserves particular attention. Critical habitat includes areas with high biodiversity value that meet the criteria of the World Conservation Union (IUCN) classification, including habitat required for the survival of critically endangered or endangered species as defined by the IUCN Red List of Threatened Species or as defined in any national legislation; areas having special significance for endemic or restricted-range species; sites that are critical for the survival of migratory species; areas supporting globally significant concentrations or numbers of individuals of congregator species; areas with unique assemblages of species or which are associated with key evolutionary processes or provide key ecosystem services; and areas having biodiversity of significant social, economic or cultural importance to local communities. Primary forest or forests of high conservation value shall be considered critical habitats. [DEG]
- 11) A benchmark for substantial is 5 —10 % of the balance sheet or the financed volume. [DEG1]
- 12) In Financial Institutions this is calculated with regard to the portfolio volume financing such activities. [DEG]
- 13) Financing of projects is excluded, when this activity forms a substantial part of a project sponsor's primary operations or those of the project,
- 14) This does not apply to purchase and use of bonded asbestos cement sheeting where the asbestos content is less than 20%. [IFC] [EBRD]
- 15) Harmful child labor means the employment of children that is economically exploitive, or is likely to be hazardous to, or to interfere with, the child's education, or to be harmful to the child's health, or physical, mental, spiritual, moral, or social development. [IFC]
- 16) Reference documents are EU Regulation (EEC) No 2455/92 Concerning the Export and Import of Certain Dangerous Chemicals, as amended; UN Consolidated List of Products whose Consumption and/or Sale have been Banned, Withdrawn, Severely Restricted or not Approved by Governments; Convention on the Prior Informed Consent Procedures for Certain Hazardous Chemicals and Pesticides in International Trade (Rotterdam Convention); Stockholm Convention on Persistent Organic Pollutants; WHO Classification of Pesticides by Hazard. [EBRD]
- 17) As defined by the Basel Convention of 22 March 1989 on the control of transboundary movements of hazardous wastes and their disposal [EBRD1]. Reference documents are: Regulation (EC) No 1013/2006 of 14 June 2006 on shipments of waste: Decision C(2001)I 07/Final of the OECD Council concerning the revision of Decision C(92)39/Final on the control of transboundary movements of wastes destined for recovery operations.
- 18) Relevant international conventions include, without limitation; Convention on the Conservation of Migratory Species of Wild Animals (Bonn Convention); Convention on Wetlands of International Importance, especially as Waterfowl Habitat (Ramsar Convention); Convention on the Conservation of European Wildlife and Natural Habitats (Bern Convention); World Heritage Convention; Convention on Biological Diversity. [EBRD]
- 19) A list of hazardous chemicals is available at <http://www.pic.int>.
- 20) This includes: tankers which do not have all required MARPOL SOLAS certificates (including, without limitation, ISM Code compliance), tankers blacklisted by the European Union or banned by the Paris

Environmental and Social Governance (Continued)

Memorandum of Understanding on Port State Control (Paris MOU) and tankers due for phase out under MARPOL regulation 130. No single hull tanker over 25 years old should be use. [EBRD]

21) Transactions under this category are not eligible for ADB Financing

8. ANNEX B – PS/PR SCREENING GUIDE

PS/PR SCREEN: Identifying Performance Standards/Requirements Applicable to a Transaction

This checklist identifies performance Standards applicable to the transaction. "Applicable to the transaction" means that the requirements of the PS need to be assessed for the transaction during project appraisal.

| | |
|--|--|
| PS 1: Social and Environmental Management System | |
| Is the Company likely to pose or generate any Environmental and/or Social risks? | |
| Yes | |
| No | |
| If the answer is „Yes”, this issue should be assessed during appraisal | |
| PS 2: Labour and Human Resources | |
| Does the company have more than 10 employees? | |
| Yes | |
| No | |
| PS 3: Pollution Prevention and Resource Efficiency. Has the company assessed its environmental impacts and its contribution to greenhouse gasses that lead to climate change? | |
| Does the company produce solid or hazardous waste, air emissions, or liquid waste, or Burn fuel, or Use pesticides | |
| Yes | |
| No | |
| If the answer is “Yes”, this issue should be assessed during appraisal. | |
| PS 4: Community Health, Safety, and Security. Is the company managing the potential health, safety, and security risks that its operations may pose to neighboring communities? | |
| Are there communities located in the vicinity of the project? | |
| Yes | |
| No | |
| If the answer is “Yes”, this issue should be assessed during appraisal. | |
| PS 5: Land Acquisition and Involuntary Resettlement. Is the company responsibly managing the involuntary resettlement of people from land it owns or uses? | |
| Does the company plan to buy, rent, or lease land it doesn't already own? | |
| Yes | |
| No | |
| If the answer is “Yes”, this issue should be assessed during appraisal. | |
| PS 6: Biodiversity Conservation. Is the company managing the impacts of its operations on biodiversity? | |
| Are there any areas of biodiversity of natural habitat within the region of influence of the company? For these purposes, consider region-of-influence to be a 25-50 mile radius | |
| Yes | |
| No | |

| | |
|--|--|
| If the answer is “Yes”, this issue should be assessed during appraisal. | |
| PS 7: Traditional Peoples: Is the company responsibly managing the potential impacts of its operations on traditional peoples? | |
| Are there traditional peoples located in the vicinity of the company's operations? | |
| Yes | |
| No | |
| If the answer is “Yes”, this issue should be assessed during appraisal. | |
| PS 8: Cultural Heritage. Is the company managing the potential impacts of its operations on archaeological, religious, historical, and other cultural heritage sites? | |
| Are there archaeological, religious, historical, and other cultural heritage sites in the vicinity of the company's operations? | |
| Yes | |
| No | |
| If the answer is “Yes”, this issue should be assessed during appraisal. | |

9. ANNEX C - Environmental and Social Due Diligence (ESDD) Report

(Only for medium and high risk transactions)

Transaction Title:

1 Nature of the Transaction and the Borrower's Business:

- Type of transaction, amount and term;
- Borrower and its business operations: [name, location, and nature of business, NACE code, size (production capacity, number of staff)]
- Purpose of loan

E&S risk Categorization: Low; Medium; High; Category A.

2 Environmental and Social Information Reviewed and Issues Identified

- Information reviewed, e.g. representations from the borrower, copies of permits/ licences, copies of policies/procedures, environmental and social impact assessment report, and related reports, site visit, inspection reports;
- Main environmental and social impacts of company operations (eg air emissions, wastewater, hazardous waste generated, land acquisition, traditional peoples, occupational health and safety, public safety, labour standards, impacts on cultural heritage);
- Key environmental and social concerns identified (e.g. high charges for emissions, known areas of current or future non-compliance with regulations, high worker accident rate, significant major accident risk, community grievances/protest, frequent strikes, bad worker/management relations).

Environmental and Social Governance (Continued)

3 Environmental Regulatory Compliance and Liability

- Does the Borrower comply with environmental regulations and standards?
 - Has the Borrower obtained the necessary permits and approvals for construction/operation?
 - Finance of new developments/major expansion projects: Has the Borrower carried out in substance and procedure an EIA in accordance with regulatory requirements? Has the EIA been disclosed to the local public that may be affected by the project? What public comments were received?
 - Has the Borrower paid excess charges or fines/penalties for non-compliance with environmental regulations and standards in the last two years? If yes, specify magnitude;
 - What are the main findings of the latest environmental inspection reports for the Borrower's business?
 - Is the Borrower subject to ongoing or pending administrative or court action because of environmental offences?
 - Is the Borrower exposed to potentially significant environmental liabilities, such as those arising from known or suspected land / groundwater contamination, related to the Company's past or ongoing operations? If yes, specify magnitude;
 - Borrowers in EU accession countries: Will the enterprise be able to meet impending EU environmental requirements and product standards?
- 4 Social standards compliance:**
- Does the borrower comply with national labour and employee protection regulations, in particular those related to occupational health and safety (OHS), employment of minors, the prohibition of forced labour, the non-discriminatory treatment of employees at the workplace, the freedom of association, and the right to bargain collectively?
 - Has the Borrower paid excess charges or fines/penalties for non-compliance with OHS, labour, and public safety/sanitary regulations and standards in the last two years? If yes, specify magnitude;
 - What are the main findings of the latest OHS/labour/Sanepid inspection reports for the Borrower's business?
 - Is the Borrower subject to ongoing or pending administrative or court action because of OHS, labour or sanitary offences?
 - Borrowers in EU accession countries: Will the enterprise be able to meet impending EU health and safety requirements, product standards and labour standards?
 - Does the project to be financed have any adverse effects on indigenous peoples, cultural or archaeological heritage? If yes, how are these impacts being mitigated?
 - Financing of new developments/major expansion projects. Does the project involve the acquisition of land, or expansion of the company's Sanitary Zone? If so, do any people have to be resettled? If yes, detailed information on applicable laws/regulations (if any) and proposed resettlement and compensation of affected people must be attached to the EDD Report.
- 5 Has the Borrower had any significant accidents or incidents in the last two years (e.g. oil spills, fires) involving deaths or serious injuries and/or significant environmental damage? If yes, please provide details.**
- 6 If land is taken as collateral, is there any indication of material contamination? If yes, are there any liabilities of the Bank as a pledge holder to clean-up the land and what is their approximate magnitude?**
- 7 Risk mitigation and monitoring:**
- State further actions required/planned by the Borrower, in particular actions to address any environmental and social non-compliance problems and liabilities;
State any risk mitigation measures to be taken by the Bank, such as environmental and social conditions, loan covenants or monitoring requirements (e.g. regular reporting from Borrower).
- 8 Environmental and Social Opportunities:** State any measures taken/planned by the Borrower, in particular any financed through the loan (other than those mentioned in section 7), to further improve the environmental or social performance of the enterprise, e.g. energy efficiency, cleaner technology, waste reduction, occupational health and safety management, community relations.

Environmental and Social Governance (Continued)

PR- Performance Requirements
ESDD- Environmental and Social Due Diligence
OHS-Occupational Health and Safety
ESRM- Environmental and Social Risk Management
C.O.- Credit Officer
EIA – Environmental Impact Assessment
RP – Resettlements Plan
IPP - Indigenous Peoples Plan

Supervisory Council Self-Assessment

1. The organisation of Supervisory Council

Governance:

The Supervisory Council of the Joint Stock Company Isbank Georgia is the key decision-making body of the bank that acts in line with Statute of the Supervisory Council and governed by Organic Law of Georgia “On the National Bank of Georgia”, Law of Georgia “On commercial Bank activities”, “Commercial Bank Corporate Governance Code” and requirements of the legislation of Georgia.

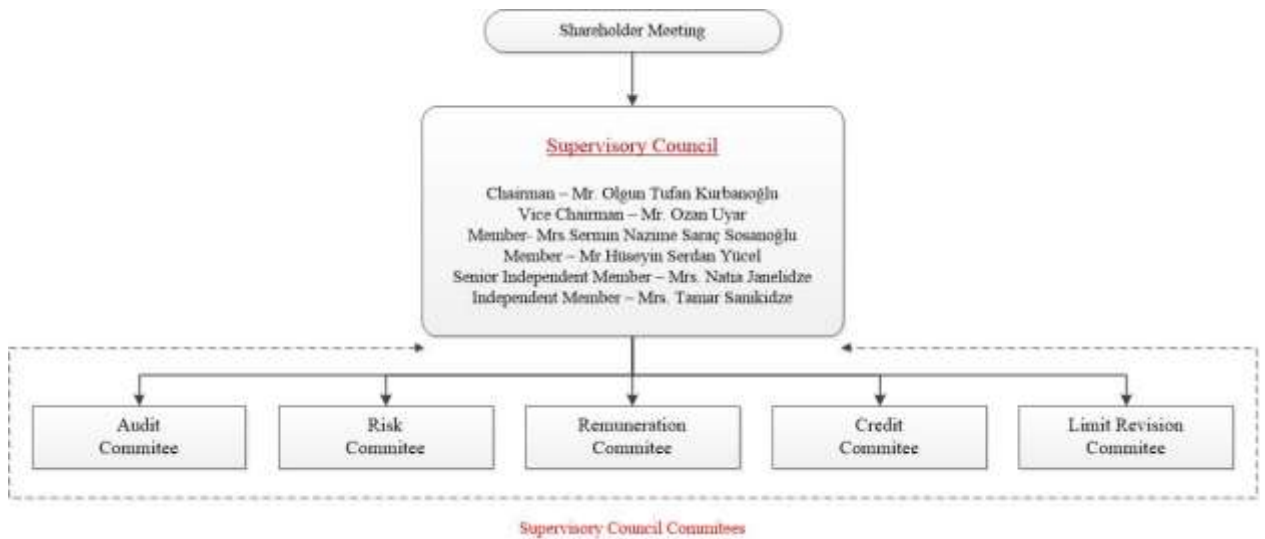

Composition:

The members of the Supervisory Council are elected by the General Meeting of Shareholders. One third of Supervisory Council members, but no less than 2 should be independent. The status of independent member of the Supervisory Council is automatically annulled after 7 years of first appointment as a member of the Council.

Supervisory Council is staffed in such a way as to maintain a balance of diversity of views. This means staffing the board with people with different skills, qualifications and experience. However, at least 20% (less than 1 member) of the Supervisory Council must be of the opposite gender.

Formation of the bank’s Supervisory Council, including selection of independent members of the Supervisory Council is carried out in accordance with the legislation of Georgia.

Currently there are six members and five committees within the structure of the Supervisory Council: Audit Committee, Risk Committee, Remuneration Committee, Credit Committee and Limit Revision Committee. The competences of the each committee are determined by their Charters.

Audit and Risk Committees are held at least four times a year, while Remuneration and Limit Revision committees are held once a year. Credit Committee is held upon request but not less than semi-annually.

All committees consist of at least three Supervisory Council member out of which one is a Chairman/Chairwoman. The structure of the committees is as following:

| Credit Committee | Audit Committee | Risk Committee | Limit Revision Committee | Remuneration Committee |
|----------------------------|---------------------|---------------------|---------------------------|-------------------------------|
| Olgun Tufan Kurbanoglu (C) | Tamar Sanikidze (C) | Natia Janelidze (C) | Ozan Uyar (C) | Sermin N. Saraç Sosanoğlu (C) |
| Sermin N. Saraç Sosanoğlu | Ozan Uyar | H. Serdar Yücel | Sermin N. Saraç Sosanoğlu | Ozan Uyar |
| Ozan Uyar | Natia Janelidze | Tamar Sanikidze | H. Serdar Yücel | H. Serdar Yücel |

Supervisory Council Self-Assessment (Continued)

2. Georgian Banking Sector

Georgian Banking sector consists of 14 banks (out of which 13 are foreign controlled) with a total asset volume of GEL 70.35 (USD 26.03) billion that makes up 98% of country GDP. Two largest banks (TBC and BOG) form 76.9% share of the total banking sector while third bank (Liberty) makes up less than one seventh of the runner-up bank. Two largest banks are quoted on the London stock exchange.

There are 154 Branches, 756 Service Centers and 2,902³ ATM machines on the territory of Georgia. The total volume of the equity amounts GEL 9.25 billion.

The banking sector implements both local and IFRS standards.

3. Documents Reviewed

Supervisory Council Assessment was based on the review of both regulatory and internal policies associated with the governance and principles of functioning of the Supervisory Council and its compliance with the regulatory framework. In parallel, Supervisory Council reviewed recent Charters of the Supervisory Council committees.

* Regarding the annulment of conservation buffer requirement please see the press release of National Bank of Georgia "Supervisory Plan Of The National Bank Of Georgia With Regard To COVID-19" (link: <https://www.nbg.gov.ge/index.php?m=340&newsid=3901&lng=eng>)

*** LCR calculated according to NBG's methodology which is more focused on local risks than Basel framework. See the table 14. LCR; Commercial banks are required to comply with the limits by coefficients calculated according to NBG's methodology. The numbers calculated within Basel framework are given for illustrative purposes.

- The Main difference is because of loan loss provision calculation according to NBG and IFRS 9; Also Corporate Bond is added to Loans to customers in Audited report, but it is included in investment securities in the NBG Report
- The corporate bond is included into the loans to customers part in Audited report, but it is included in the investment securities in the NBG Report
- Investment securities are accounted as Held To Maturity in the NBG Report, but it is accounted as AFS with Fair Value in audited report
- The main reason of difference is because of difference between NBG and IFRS 9 provisioning standards.
